SUZHOU GLOBAL TEXTILE CO.,LTD

PROFESSIONAL MANUFACTUREROF FUNCTIONAL FABRICS

Global Textile

Global Textile was founded in 2008 and is located in Shengze, China — an industrial town with over 3,000 years of weaving history, renowned as "ten thousand bolts a day, clothing the world."

We specialize in the development and production of woven fabrics, serving applications in outdoor apparel, down jackets, sportswear, and functional wear. We supply fabrics to brands, traders, and garment manufacturers across Asia, Europe, and the Americas.

Flexible MOQ:

From 1000YD

Fast Turnaround:

4 Weeks

Yearly Production	Advanced Equipment	Modern Factory Area	Client
50 mil	1,300	50,000㎡	500+

Large production capacity and unique technology enable you to expand your business with ease.

COOPERATION PARTNER

CERTIFICATION

COMPANY SCALE

WEAVING FACTORY

Imported High-End Weaving Machinery

Guarantee premium greige quality with an annual output of 50 milion meters. This guarantees timely delivery without delays

Electronic Faucet

Creating Patterns on Woven Tube Fabrics

We have jacquard weaving machines equipped with electronic systems, capable of designing any pattern you require.

DYEING

Proctised Dye Product Team

We maintain long-term partnerships with professional dyeing mills to ensure the finish dyeing fabrics to be good downproof, water repellence. And be clear on both face and back.

FINISHING

Your Shield of Protection

Outdoor Functional Fabric Fliming Center.Equipped with 7 state-of-the-art lamination production lines, 2 automated adhesive coating machines, and imported PUR intelligent laminating systems, our center lays a solid foundation for Tube Textile's future development.

INSPECTION

To ensure strict quality control, we cooperate with third-party inspection centers on a long-term basis, testing fabrics in accordance with Japan’s 10-point system and the U.S. 4-point system (for greige and dyed fabrics). Our goal is to **make every meter of fabric meet customer satisfaction.**

Spectra® Fabric

Spectra® fiber is 15 times stronger than steel, with a specific gravity of less than 1 and abrasion resistance exceeding 100,000 cycles. By adopting a grid layout, our fabrics achieve an optimal balance between tear resistance, durability, light weight, and cost-effectiveness, making them an excellent choice for performance apparel and backpacks.

Applicable Fields

Premium outdoor gear

Protective clothing

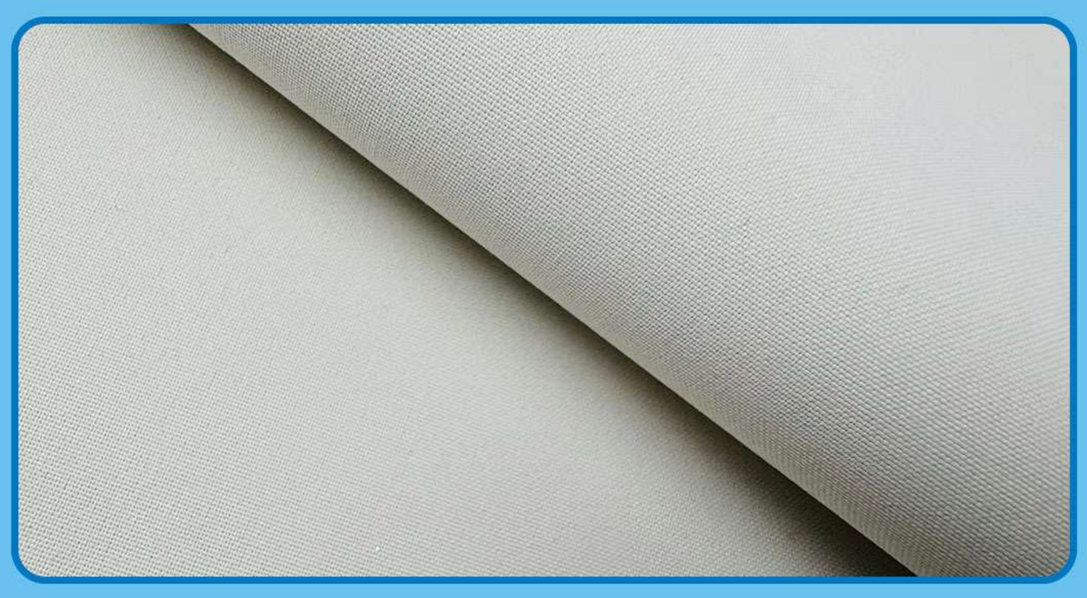
Sportswear

High-performance packaging

Cotton Like Polyester

Softer. Stronger. Better.

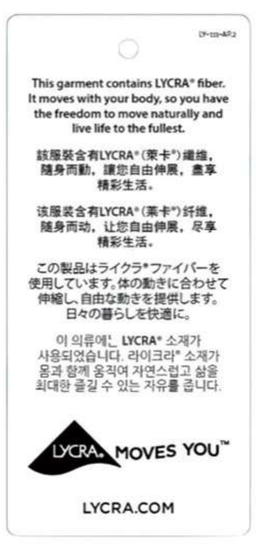
Breathable and quick-dry, non-stick during activity, wrinkle-resistant and easy-care, superior stretch, retains shape after repeated washing. Eco-friendly and sustainable.

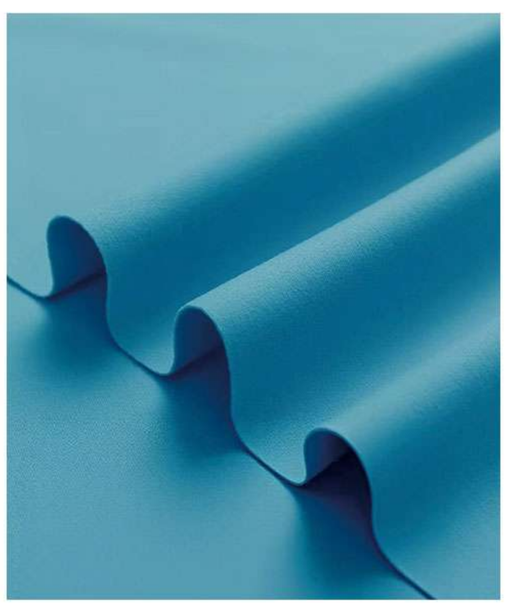


PRODUCT CATEGORIES

Sorona Fabric

COOLMAX Fabric





Lycra Fabric

THERMOLITE Fabric

CREORA POWER FIT Fabric

CREORA POWER FIT Fabric

Ultra-Fine Denier Nylon Fabric

Lightweight yet strong, abrasion-resistant and tear-resistant, with effective down-proof performance. Our high-density weave structure strikes a balance between lightweight, durability, and softness — ideal for lightweight down jackets, windbreakers, and UV-Protective Wear.

Applicable Fields

Outdoor Tents

Sleeping Bags

Down Vests

Down Jackets

Tube fabric

Seamlessly woven without lining.

Woven in one piece with high density, this fabric provides excellent down-proof performance and water repellency, without lamination. It delivers enhanced warmth and comfort.
